BUILDING TOMORROW. TOGETHER.

JOHN DEERE

Committed Professionals

We Are a Rental Company.

We Are Focused On Renting Equipment

You will talk to people whose knowledge and focus are dedicated to knowing what you need, and why you need it.

Synergy's Branch Managers Have an Average of 11 Years Rental Industry Experience

Synergy Rental's local branches are operated by managers with a broad and deep knowledge of construction and industrial equipment, and your industry. Our local rental leaders' thorough knowledge of job sites, construction and industrial processes, and the equipment will help you get your jobs done.

Intelligent Training to Support Your Rental Service

We train every branch employee on customer service, the rental process and equipment applications using Synergy-designed programs that are recognized as the best in the industry.

Quality Assurance

All Of Our Branches Work Hard For Their Stars.

We focus on the basics that are important to all of our customers:

- ★ Quality Equipment
- ★★ Delivered The Equipment Specified
- ★★★ Delivered The Equipment On Time
- ★★★★ Accurately Invoiced

We survey 5 percent of our deliveries and audit our invoice accuracy to measure branch performance in these four areas.

Top-performing branches are awarded the Four Star Service Award each quarter as a sign of their excellence.

Dedicated Maintenance

We Keep You Up and Running.

Ready-To-Go Service Trucks

Field service trucks are fully equipped with tools, parts, lube tanks, reels and cranes.

Staying Ahead Of Maintenance

We carefully and regularly monitor our equipment engines and wearable parts to give us advanced warning for future replacements and potential breakdowns. Every branch has a computerized maintenance system that is used to manage and checklist equipment, as well as document and manage equipment maintenance.

Continual Training

We ensure that our mechanics and service managers have the most current knowledge and skills to maintain and repair equipment. We train technicians at manufacturers' factories and regional schools, and through online instructional programs.

Taking Ownership Of Service

Ready-to-rent green tags are signed by the servicing technicians and attached to each piece of equipment on the ready line.

24/7 Service

Synergy Equipment's Responsive Service Is Unlike Anything That You Have Experienced.

Local Connection. Local Service.

All of our branches roll their after-hours phones to a branch "on-call" employee who is empowered to help you and solve problems.

We Double Check.

We audit our after-hours response to assure that we respond to our customers' emergencies, locally and any time they need us.

SAWS

Cut-Off Saw 14" Gas
Walk-Behind Saw

PRESSURE WASHERS

2,000 - 4,000 PSI

COMPACTORS

Single Directional Plate 1,500 Lbs.
Reversible Plate 2,500-5,000 Lbs.
Reversible Plate 5,000-7,000 Lbs.
Reversible Plate 8,000-12,500 Lbs.
Rammer Gas 2,900-3,000 Lbs.

CHIPPING HAMMERS

Air Chipping Hammer, 10-15lbs.
Air 30 Lbs.
Air 60 Lbs.
Air 90 Lbs.
Electric 60 Lbs. Hammer

2" - 4" PUMPS

Hydrostatic Test 550 PSI Gas
Submersible 2" 120V
Trash Centrifugal 2"
Gas Diaphragm 3" Gas
Trash Centrifugal 3"

CONCRETE DRILLS

Core Drill
Electric
Stand Core Drill
Hand-held
Core Bit - 2" 3" 4" 5" 6" 8" 10"

CONCRETE EQUIPMENT

Concrete Vibrator
Concrete 9 Cu. Ft. Mixer Mortar

GENERATORS

6 Kw Gas
20-30 Kw Diesel Generator, towable
45-55 Kw Diesel Generator, towable
36-45 Kw Diesel Generator, towable
60-90 Kw Diesel Generator, towable
125 Kw Diesel Generator, towable
150 Kw Diesel Generator, towable

LIGHT TOWERS

4,000 Watt , 6 Kw Diesel

WELDERS

Sky Welding Pack for Boom Lifts
340 Amp Diesel Welder, towable
400 Amp Diesel Welder, towable
Welding Lead Cables

COMPRESSORS

185 CFM Diesel
210 CFM Diesel
375 CFM Diesel
Air Hose
Blow Pipe

UTILITY VEHICLES

Bobcat®

We are Florida's Largest Bobcat Equipment Dealer

Synergy Equipment operates Bobcat® dealerships in Miami, Orlando, Tampa, Fort Myers and Daytona Beach. Synergy is the factory-authorized Bobcat dealer for new equipment and OEM parts only in these Florida markets.

Bobcat Skid Steer Loaders

Bobcat's skid steer loaders have a 50-year history of quality, performance, and reliability. It's no wonder they're the world's best selling skid-steer loader. When paired with a Bobcat attachment, each skid-steer model is a force to be reckoned with on your job site.

Bobcat Track Loaders

Bobcat compact track loaders are the industry's most powerful, comfortable, and versatile compact track loaders. Even in soft, sandy, wet, or muddy conditions, you will be able to push through and get the job done.

Compact Excavators

With the industry's largest selection of models, you will find a machine that is matched to your specific excavation needs. Choose an excavator with the right combination of dig depth, arm configuration and tail swing for your work. Add specialized attachments that do more than dig and can maximize the kinds of projects you take on.

DOOSAN®

Designed for long life with an extra-sturdy frame and reinforced superstructure, Synergy Equipment's Doosan excavators are built for reliability. The excavators' key elements - bushings, ultra-hard wear disks and seal track links - extend service intervals and performance.

Synergy Equipment's Doosan wheel loaders feature a hydrostatic transmission that delivers more power, improved fuel efficiency, and improved precision. Traction control gives you the ability to easily adjust traction force to match job site conditions.

Synergy Equipment's Doosan articulated dump trucks power through large loads with a class-leading power-to-weight ratio, superior torque and efficient fuel consumption. A sloping rear frame in combination with the tread width provides a lower center of gravity, which increases lateral stability.

Synergy Equipment Pumping Division

Synergy Equipment's Pump Division provides high-quality, customer-focused dewatering and fluid transfer solutions, and associated pumping accessories.

High Volume Pumps 4" - 18"

- Bypassing gravity sewers, lift stations, or canals
- High-volume dewatering
- Water transfer

Extreme High Head Pumps 4" - 12"

- Mining, and construction environments
- High PSI jetting
- Moving water long distances or with extreme head

Rotary Lobe Pumps 6" - 12"

- Wellpointing
- Sock dewatering

Double Diaphragm Pumps 4" - 8"

- Moving heavy sludge and debris-filled wastes from trenches and catch basins
- Wellpointing
- Sock dewatering
- Open sump dewatering

Piston Pumps 4" - 6"

- Wellpointing
- Sock dewatering

Synergy Equipment Pumping Accessories

We offer the following options and accessories to fully outfit your site:

- **Telemetry:** Remote monitoring, pressure and vacuum transducers and auto-start floats
- **Pipes:** Quick connect, HDPE and galvanized steel
- **Hoses:** Suction and discharge in all configurations
- **Fittings:** Quick connect, cam and groove, NPT, and sock tee
- **Auxiliary fuel tanks:** Self-contained, and 250 and 500 gallons
- **Road crossings:** Single-lane and double-lane lengths
- **Wellpoint accessories:** Header pipe, swing arms, points and jetting rods
